

Prince Naif
Rehabilitation Centre

PRINCE NAIF REHABILITATION CENTER

Prince Naif Rehabilitation Center

About us

The first non-profit center specialized in rehabilitating individuals with developmental disorders in six specific diagnoses

(global developmental delay, ADHD, genetic disorders, psychological disorders, sensory processing disorder, and post-cochlear implant rehabilitation)

using specific, proven-effective, and internationally licensed therapeutic methods, in addition to empowerment services that integrate seamlessly with the child and family's life in the Eastern Province.

Prince Naif
Rehabilitation Centre

His Royal Highness Prince
Saud bin Naief bin Abdulaziz Al Saud
Governor of the eastern province
of Saudi Arabia Honorary President of
the
Rehabilitation Center

May God protect and bless him.

Our Vision

Leading in providing specialized services for six developmental and psychological disorders on a non-profit basis across the Gulf region.

Our Mission

Empowering people of all abilities by creating inclusive communities within the center and in various life environments, aiming to enhance quality of life and align with the nation's Vision 2030.

Our Goals

- Adopting the latest globally proven therapeutic methods and interventions to rehabilitate individuals of all abilities, develop their skills, and enhance their quality of life
- Creating inclusive communities for individuals of all abilities within and beyond the center by establishing partnerships with various organizations.
- To make the center a model for achieving sustainability, contributing to the support of the non-profit sector's economy, and ensuring financial sustainability.

Targeted Groups

Individuals from Birth to 21 Years in the Following Cases:

- Global Developmental Delay
- Attention Deficit Hyperactivity Disorder (ADHD)
- Genetic Disorders
- Psychological Disorders
- Sensory Processing Disorder
- Rehabilitation Post-Cochlear Implant

Academic Empowerment Center

Since the academic aspect is a fundamental component of a person's life and success, and improving their quality of life, the center supports the academic achievement of children enrolled in general education who suffer from developmental disorders that have led to academic difficulties. It also supports children who are capable of learning but not enrolled in general education by preparing an appropriate environment and providing them with essential skills to integrate into general education. Additionally, their development is monitored through:

Academic mentoring program

Shadow Program

Early detection programs

Prince Naif Platform for Life Skills Management

The Prince Naif Rehabilitation is dedicated to creating opportunities and inclusive communities for individuals of all abilities to enhance their quality of life, activate their roles in society, and achieve well-being. This is accomplished through partnerships between the platform and various organizations involved in different aspects of therapeutic, skill-building, and recreational life.
